GENERAL PRODUCT CATALOGUE

GLASSBLOCKS

ATTENTION

When creating this catalog, we paid great attention to its currentness and simplicity. The catalog is linked to the e-shop, and new versions are generated regularly, which enables us to ensure that it is always up-to-date. For easier browsing, we've linked each item in the table of contents to specific pages in the catalog, and if you want to go back to the table of contents, just click the button in the bottom left corner of almost every page in this catalog and you'll be back.

Each product is automatically linked to the corresponding product page on our e-shop. If you would like to learn more about the product, just click on its name or image. If you have this catalog opened in your web browser, you probably want the product to open in a new tab. You can achieve this by holding CTRL (pc)/CMD (mac) when clicking on the product and the browser will automatically open it in a new tab in your browser. We apologize for this inconvenience, but unfortunately the current PDF format options do not allow us to eliminate this problem. Thank you for your understanding.

Please enjoy browsing our new product catalogue!
